

U-M MOVEMENT AND MEMORY DISORDERS UPDATE

FRIDAY, OCTOBER 21, 2016

The Inn at St. John's, Plymouth, MI

PROGRAM SCHEDULE

FRIDAY, OCTOBER 21, 2016 6.5 CREDIT HOURS

7:30am	Registration and Continental Breakfast
8:00	What's Shaking? Approach to the Patient with Tremor <i>Andrew Ridder, MD</i>
8:45	Levodopa and Friends: Medications for Parkinson Disease <i>Praveen Dayalu, MD</i>
9:30	BREAK
9:45	Deep Brain Stimulation: It's No Longer Science Fiction <i>Parag Patil, MD, PhD</i>
10:30	Update on the Neuropsychiatry of Parkinson's Disease <i>Daniel Weintraub, MD</i>
11:30	PANEL DISCUSSION <i>Moderator Kelvin L. Chou, MD</i>
12:00pm	LUNCH
1:00	Practical Approach to the Patient with Cognitive Concerns <i>Benjamin Bly, MD</i>
1:45	What is Lewy Body Dementia? Clinical Features and Treatment <i>Judith Heidebrink, MD</i>
2:30	Clinical update on Alzheimer's disease <i>Nancy Barbas, MD</i>
3:15	PANEL DISCUSSION <i>Moderator Kelvin L. Chou, MD</i>
3:45	Adjourn

GUEST FACULTY

Daniel Weintraub, MD
Associate Professor of Psychiatry
Hospital of the University of Pennsylvania
University of Pennsylvania Perelman School of Medicine

UNIVERSITY OF MICHIGAN FACULTY

Nancy Barbas, MD
Associate Professor, Neurology

Benjamin Bly, MD
Assistant Professor, Neurology

Kelvin L. Chou, MD
Professor, Neurology and Neurosurgery
Co-Director, Surgical Therapies Improving Movement (STIM) Program

Praveen Dayalu, MD
Associate Professor, Neurology

Judith L. Heidebrink, MD
Associate Professor, Neurology
Staff Neurologist, Veterans Affairs Ann Arbor Healthcare System

Parag G. Patil, MD, PhD
Associate Professor, Neurosurgery, Neurology, Anesthesiology and Biomedical Engineering
Co-Director, Surgical Therapies Improving Movement (STIM) Program

Andrew Ridder, MD
Clinical Lecturer, Neurology

PLANNING COMMITTEE

Kelvin L. Chou, MD
Course Director
Professor, Neurology and Neurosurgery
Co-Director, Surgical Therapies Improving Movement (STIM) Program

Laura Zeitlin, LMSW
Educational Activities Coordinator, Udall Center of Excellence for Parkinson's Disease Research
Clinical Social Worker/Program Coordinator, Surgical Therapies Improving Movement (STIM) Program

COURSE OBJECTIVES

This highly anticipated full-day course focuses on issues in patients with tremor, Parkinson disease and dementia, utilizing both a didactic and case-study approach. Specifically designed for the busy clinician, this day will provide attendees with high-yield information and clinical pearls for recognition, diagnosis, efficient assessment and initial management of patients who present with tremor, Parkinson disease, and cognitive problems. Participants will benefit from the expertise of University of Michigan Medical School faculty and internationally renowned guest speakers. Course faculty will give a didactic lecture for each topic that includes case presentations so that participants can experience how course faculty approach cases in their own practice. The morning and afternoon sessions will end with a panel discussion so that participants have ample time to ask questions. The intended audience includes primary care physicians, geriatricians, psychiatrists, neurologists, physicians in training, nurses, and physician assistants who are interested in learning more about movement and cognitive disorders.

LEARNING OBJECTIVES:

Upon completion of this course, participants should be able to:

- Identify different types of tremor and use that knowledge to more accurately diagnose tremor disorders
- Describe pharmacologic treatment options for managing motor symptoms in Parkinson disease
- Recognize the common neuropsychiatric features (including depression, anxiety, apathy, impulse control disorders, psychosis) seen in Parkinson disease and how to manage the symptoms
- Identify potential essential tremor and Parkinson disease candidates for deep brain stimulation and when it is appropriate to refer
- Describe how to evaluate patients with cognitive complaints
- Recognize the clinical manifestations of dementia with Lewy bodies, and be familiar with current treatment options
- Diagnose and treat Alzheimer's disease

WHO SHOULD ATTEND:

The intended audience for this course includes primary care physicians, geriatricians, neurologists, psychiatrists, nurses, and physician assistants who see patients with movement disorders.

DATE

Friday, October 21, 2016

Registration and Continental Breakfast: 7:30am

Course Adjourns: 3:45pm

LOCATION

The Inn at St. John's

4405 Five Mile Rd., Plymouth, MI 48170 (include map)

Phone: (734) 414-0600

Fax: (734) 414-0606

www.stjohnsgolfconference.com

Course Fee: \$150

REGISTRATION

You are urged to register as soon as you are certain of attending as we cannot guarantee education materials for applicants who are not preregistered and prepaid by **October 7, 2016**. Registration fees include continental breakfast, lunch, and educational materials for each participant. Checks should be made payable to the University of Michigan. Payments made via American Express, Visa or MasterCard are also accepted.

RECORDING THE PROGRAM

Recording the program with battery-operated devices not requiring podium microphones is permitted for the registrant's personal use.

PROGRAM FUNDING

This program is supported under the Education and Outreach Core of the University of Michigan Udall Center for Excellence in Parkinson's Disease. The Education and Outreach Core pursues a comprehensive program to educate caregivers about the etiology, clinical features and state-of-the-art management of Parkinson disease, including the clinical education of Udall Center Fellows and an aggressive outreach program to inform and educate traditionally underserved communities about Parkinson Disease and related movement disorders.

U-M MOVEMENT AND MEMORY DISORDERS CONFERENCE

Friday, October 21, 2016

ACCREDITATION AND CREDIT DESIGNATION:

The University of Michigan Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The University of Michigan Medical School designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Osteopathic Association has approved this live activity for 6.50 credit hours.

This live activity, U-M Movement and Memory Disorders Update, is under review for approval for up to 6.50 prescribed credit(s) by the American Academy of Family Physicians.

DRIVING DIRECTIONS

From the East

Follow I-96 until it turns into M-14. Follow M-14 west to Sheldon Road exit. Turn right onto Sheldon Road. Follow Sheldon Road for about half a mile. Turn right onto Five Mile Road. Entrance to The Inn at St. John's is on the right.

From the West

Follow M-14 East to Sheldon Road exit. Turn right onto Sheldon Road. Follow Sheldon Road for about half a mile. Turn right onto Five Mile Road. Entrance to The Inn at St. John's is on the right.

From the South

Take I-275 north to M-14. Exit onto M-14 west towards Ann Arbor. Follow M-14 west to Sheldon Road exit. Turn right onto Sheldon Road. Follow Sheldon Road for about half a mile. Turn right onto Five Mile Road. Entrance to The Inn at St. John's is on the right.

From the North

Take I-275 south to M-14. Exit onto M-14 west towards Ann Arbor. Follow M-14 west to Sheldon Road exit. Turn right onto Sheldon Road. Follow Sheldon Road for about half a mile. Turn right onto Five Mile Road. Entrance to The Inn at St. John's is on the right.

COURSE DIRECTOR

Kelvin L. Chou, MD

Kelvin L. Chou, MD, is a Professor of Neurology and Neurosurgery in the Department of Neurology. He is the Education and Outreach Core leader for the U-M Udall Center for Excellence in Parkinson's Disease. Dr. Chou also serves as Co-Director of the Surgical Therapies Improving Movement (STIM) Program.

Dr. Chou's research is focused on improving the ability to treat movement disorders patients through deep brain stimulation (DBS) by better understanding the relationships between patient baseline characteristics, DBS targeting, and the clinical effects of stimulation.

Dr. Chou sees all patients with movement disorders (i.e. Parkinson disease, tremors, dystonia, Huntington disease). He has particular interest in Parkinson disease (PD) and deep brain stimulation (DBS) for movement disorders, and he also has clinical expertise in botulinum toxin injections for movement disorders such as dystonia.

Dr. Chou serves on the Professional Advisory Board of the Michigan Parkinson Foundation, the Medical Advisory Board of the International Essential Tremor Foundation (IETF) and has published a book for patients and families called Deep Brain Stimulation: A New Life for People with Parkinson's, Dystonia and Essential Tremor.
